

Goliath grouper reporting Instructions

The Goliath grouper reporting tool is located in the query builder dialogue box.

The image shows a 'Query builder' interface with the following elements:

- A 'Minimize controls' button at the top.
- A 'Query builder' title.
- A 'Select Years:' section with a range slider from 2006 to 2015. The slider has major ticks every 2 years (2006, 2008, 2010, 2012, 2014) and minor ticks every 1 year.
- A 'Number Observed:' section with a range slider from 1 to 182. The slider has major ticks at 1, 20, 39, 58, 77, 96, 115, 153, and 182.
- A 'Submit query' button.
- A home icon.
- A checkbox labeled 'Report Goliath Grouper interaction'.

An orange arrow points from a text box to the checkbox. The text box contains the following text:

Check the box next to Report goliath grouper interaction to bring up the reporting tool.

After checking the report goliath grouper box on the query builder a goliath grouper reporting dialogue box will appear.

By clicking on the map where the goliath grouper was sighted will display a marker marking the position of the goliath grouper. Latitude and longitude can also be used to identify goliath grouper location.

Click on map to identify location of grouper interaction or enter coordinates in boxes below.

Latitude

Longitude

Date:

Name: (not required)

Email: (not required)

Habitat:

Was fish vented before release

Comments:

Latitude and Longitude can be entered here.

Date will automatically display

Name and Email are not required, but do help us keep track reports. We also may have questions about the sighting in the future.

Please choose the habitat type goliath grouper was using during sighting. Also check if the fish was vented.

Please leave comments or more information about the sighting.

Please click the submit location of goliath grouper button to submit your report.
